859-802-2024

FOR THE ATTENDEES:

- It's FREE
- Substitute Reimbursement
- NEED Curriculum Packet
- Participating teacher will receive a NEED Science of Energy kit.
- Preworkshop materials will be provided.

ABOUT THE SPONSOR

The American Electric Power Foundation is funded by American Electric Power and its operating subsidiaries. The Foundation provides a permanent, ongoing resource for charitable initiatives in the communities served by AEP and initiatives outside of AEP's 11-state service area.

The Foundation focuses on improving lives through education from early childhood through higher education in the areas of science, technology, engineering and math and by meeting basic needs for emergency shelter, affordable housing and the elimination of hunger. Our Social and Racial Justice grant program, Delivering On the Dream, is for organizations whose mission and/or programming is committed to positive social and racial justice outcomes. Other Foundation support may be offered to protect the environment, support healthcare and safety, and enrich life through art, music and cultural heritage.

ABOUT THE NEED PROJECT

The NEED Project designs and delivers teacher-tested educational materials, evaluation techniques and tools, recognition of student achievement, and professional development for educators. NEED materials and training programs provide comprehensive, objective information about the scientific concepts of energy and the sources of energy – their use and their impact on the environment, the economy and society.
